### Why should your organisation get involved?

Ever wondered what a Reconciliation Action Plan (RAP) is? Who does it involve and who does it impact? Reconciliation Australia is a non-profit, independent organisation that seeks to promote and build better relationships between Aboriginal and Torres Strait Islander peoples and the wider Australian community for the benefit of all Australians. One way that we do this is through the RAP program.

This information session will provide you with information about the RAP program; the benefits of the program to your organisation and community and how your organisation can join the program.

### Developing a RAP for your organisation?

This workshop is aimed at organisations that are developing a Reconciliation Action Plan (RAP).

By participating in this workshop, you will be able to return to your organisation and run a session with your working group and other relevant stakeholders to develop your own RAP. The workshop will provide you with an appreciation of the impacts RAPs are having in changing workplace culture; assist you in identifying key stakeholders; share innovative relationship, respect and opportunity focused actions with other organisations and know what is required in order to have your RAP endorsed by Reconciliation Australia.

You will have the opportunity to network with other organisations in your region who are also developing a RAP.

A guest speaker from the RAP community will also share their hot tips to support your RAP development.
